

ISCC Coach Certification, Endorsement and National Recognition

Last month Singapore Sports Council (SSC) and Ministry of Education (MOE) launched the Sports Education Program to all Primary, Secondary, Junior Colleges. To ensure the highest possible standard of delivery of programs they introduced strict requirements of SkateSchools and a set of standards for Coaches.

Simply put, if you want to teach in Schools you must have been awarded a recognized Coaching Certificate, have a current CPR and First Aid Certification and be employed by a registered Skate School.

Now, despite the quality of content and program there is only one certification program in Singapore which is currently endorsed by SSC. We understand that everyone is entitled to a choice therefore we have made a commitment do what is recommended and required to become endorsed by SSC thereby providing more opportunities for ISCC Certified Coaches.

Following is the list of the current requirements to become a ISCC Certified Coach. The only only additional requirement at this stage is that all Certified Coaches wear a helmet while teaching, we agree.

ISCC Certified Coach - requirements

- ? complete a structured course of theory, teaching/coaching practical,
- ? personal skating skills development
- ? complete 12 hours of attachment
- ? achieve a 70% or greater pass in all four components
- ? abide by the code of ISCC code of conduct (eg. use of safety gear and **helmet** while teaching)
- ? complete a recognized CPR and First Aid course *(to be eligible to teach in Schools under SEP)

In the best interests of all the skating community I rally your support for the ISCC Coach Certification program. Fill in your name at the "Support ISCC" form below and send it to me, write a letter of recommendation, or send in pictures of your Coaches in full gear and register more of your Coaches for the upcoming ISCC Certification program.
